

International Mathematics Excellence

Mentoring program by **Tony Donea**

Elevate Your Child's Mathematical Skills

via expert mentorship

Looking for a way to give your child an edge in mathematics?

Our mentorship program is designed to help students achieve international excellence in math.

Take advantage of years of a proven track record of mentoring students to top ranks in prestigious international math contests like IMO and AMC.

Unique approach focused on personalized attention, interactive learning, and continuous support, ensuring that each student not only excels academically but also grows personally.

Join us and unlock your child's full potential with expert guidance and mentorship.

About myself

Over 15 years of teaching IB Mathematics in Tokyo and the US

Mentored over 100 students to achieve top ranks in international math contests

Rich experience in diverse cultural settings, connected with students from various backgrounds

Tony Donea

Student Achievements

Students have consistently ranked in the top percentiles in contests like IMO, AMC, and other international math competitions.

Over 100 students got acceptance into prestigious universities worldwide (Harvard, Oxford, ..) through their achievements.

Testimonials

先生のおかげで息子の数学の成績が飛躍的に向上しました。
国際コンテストでの成功に感謝しています。

"Thanks to the teacher, my son's math grades have improved dramatically. I am grateful for his success in international contests."

Teaching methods

Weekly Homework: Structured assignments to reinforce learning.

Contest Preparation: Specialized training for national and international contests.

Progress Tracking: Regular assessments and feedback sessions.

Ad-hoc Support: continuous support via email/chat/phone.

Personalized Mentoring: Tailored to pupil's level, abilities, and his most effective learning style.

Bilingual Education: Enhance English proficiency alongside mathematical skills.

Outstanding benefits

Strong Academic Foundation: students will develop a deep understanding of mathematical concepts. Solid foundation for future academic pursuits.

Critical Thinking Skills: Expert mentorship fosters critical thinking and problem-solving, essential for success in any field.

Confidence and Motivation: Personalized support helps build self-confidence and a positive attitude towards learning, motivating students to strive for excellence.

International Competitiveness: Preparation for international contests and exposure to diverse problem-solving techniques equip students to compete on a global scale.

Lifelong Learning: The skills and habits developed through expert mentorship extend beyond academics, encouraging a lifelong love for learning and intellectual curiosity.

College Readiness: A strong mathematical background, combined with improved English proficiency, enhances college applications and readiness for higher education.
